To Whom It May Concern:

Bayshore Painting Contractors completed a painting job at the Venice complex of Senior Friendship Centers, Inc. in October 2000. Our Venice complex consists of two large two-story buildings and one smaller maintenance building. The job consisted of pressure washing the roofs of all three buildings, pressure washing of the three buildings, and applying a primer coat and two exterior coats of acrylic paint.

Bayshore Painting Contractors have also completed the pressure washing of the Sarasota complex of Senior Friendship Centers, Inc. in November 2000. Our Sarasota complex consists of two large two-story buildings. The job consisted of pressure washing the roofs and exterior of both buildings and the sidewalks.

Bayshore painting completed these jobs within the time frame agreed upon and did a professional job. Their proposal was very detailed and the price was extremely competitive. Bayshore Painting was very accommodating and courteous when on site and corrected any problems immediately and without argument.

I would recommend Bayshore Painting Contractors to anyone considering their services.
